Subject FTA 5310 List of Projects for FY 2008/09 - Request for
Programming

Greetings,

The note below from Caltrans Division of Mass Transportation includes list of FTA Section 5310 Projects for FY 2008/09. This list was approved by the California Transportation Commission on April 7th, 2010. Please program projects for your region from the attachment, with the exception of projects with the strike-through, in your 2009 FTIP for FY 2009/10.

If these projects are not awarded prior to the expiration of the 2009 FSTIP, these projects will need to be re-programmed in your 2011 FTIP. Use the fund type below for programming these projects in the FTIP. Thanks.

Subject Re: FTA 5310 List of Projects 

Good Afternoon,

Thank you very much for your patience in this matter.

Attached is the complete list for programming the recently CTC approved 5310 projects.

Two items I would like to bring to your attention on this list. The 7 lines with strike thrus are ITS items that cannot be programmed at this time. We must ensure they meet federal requirements PRIOR to programming.

Second, as an FYI are the lines in yellow. These are awards for a vehicle that is not available at this time and we are not sure when or if it will become available in the future. Agencies can program this vehicle and wait to see if it becomes available or they will contact me to determine if another vehicle can be approved to meet their needs.

I have notified each agency and the RTPA or MPO of both of these issues.

Please let me know if you have any questions.
